adaptive greedy
oracle (each case's own single-expert ranking)
random order (mean of 5)
CounterFact · Qwen3-30B-A3B (K = 384)
experts for 80 % of the ceiling: greedy 5 · oracle 6 · random 320
random-order k that matches greedy's first k: 1→137 · 5→325 · 10→never · 15→never
all MoE outputs patched: 0.53
15→never
10→never
5→325
1→137
CounterFact · Mixtral-8x7B (K = 64)
experts for 80 % of the ceiling: greedy 4 · oracle 5 · random 64
random-order k that matches greedy's first k: 1→16 · 5→62 · 10→never · 15→never
all MoE outputs patched: 0.41
15→never
10→never
5→62
1→16
WinoGrande · Qwen3-30B-A3B (K = 384)
experts for 80 % of the ceiling: greedy 10 · oracle 48 · random 320
random-order k that matches greedy's first k: 1→74 · 5→207 · 10→269 · 15→294
all MoE outputs patched: 0.84
15→294
10→269
5→207
1→74
WinoGrande · Mixtral-8x7B (K = 64)
experts for 80 % of the ceiling: greedy 7 · oracle 8 · random 48
random-order k that matches greedy's first k: 1→12 · 5→37 · 10→54 · 15→never
all MoE outputs patched: 0.79
15→never
10→54
5→37
1→12
fraction of the drop restored, r(k)
experts patched back together, k (log scale)
